PRINCIPLES OF GEOGRAPHY

Chapter 1

GEOMORPHOLOGY

Fundamental Concepts of Geomorphology

Origin and Evolution of Earth's Crust

Some Theories on Origin of the Earth 4/

Evolution of the Earth 8

Fundamentals of Geomagnetism

*Fields 10/ Magnetic Field 10/ Features of the
Magnetic Field 11/ Detecting the Magnetic
Field of the Earth 11/ Laws 11/ Generating
the Magnetic Field 11/ Variations and
Reversals in the Magnetic Field 12/ Magnetic
Poles 13/ Magnetic Compass 13/ Geomagnetic
Models 14/ Space Weather 15/ Geomagnetism:
Discoveries and Developments in the Past 16/
Continental Drift/Plate Tectonics 17/
Developments in the Latter Half of the 20th
Century 18*

Earth's Interior

*Evidences about Earth's Interior 18/ A
Sectional Profile of Earth's Structure 20/
Various Hypotheses on Earth's Interior 20/
Geosynclines 21*

Earth Movements

*Endogenetic Movements 25/ Exogenetic
Forces—Weathering and Erosion 29*

Plate Tectonics

*Sea Floor Spreading (Hess, Dietz 1962) 36/
Plate Tectonics 37*

Isostasy

Evidence in Support of Isostasy 41

Mountain Building (Orogeny)

Block Mountains 43/ Fold Mountains 43

Volcanism

*What is Volcanism? 45/ Causes of Volcanic
Activity 46/ Products of Volcanic Activity 46/
Characteristic Eruptive Types 47/ Effects of
Volcanism on Human Activity 47/ Distribution
of Volcanoes 48*

Earthquakes

Distribution of Earthquakes 51

Tsunami

About Tsunamis 51/ Propagation of Tsunamis

Rocks

*Igneous Rocks 54/ Sedimentary Rocks 56/
Metamorphic Rocks 58/ Some Examples of
Metamorphism 59*

Concepts of Geomorphic Cycles

*(Including Theories of
Landform Development)*

Cycle of Erosion

*Views of William Morris Davis 63/ Views of
Penck 65*

Fluvial Landforms and Cycle of Erosion

*Various Aspects of Fluvial Erosive Action 66/
Fluvial Landforms 67/ Fluvial Cycle of Erosion
71*

Glacial Landforms and Cycle of Erosion

*Erosional Landforms 73/ Depositional
Landforms 74/ Glacial Cycle of Erosion 75*

Marine Landforms and Cycle of Erosion

*Erosional Landforms 75/ Depositional Features
76/ Coastlines 77/ Marine Cycle of Erosion 77*

Arid Landforms and Cycle of Erosion

Karst Landforms and Cycle of Erosion

*Conditions Essential for Full Development of
Karst Topography 85/ Karst Landforms 85/
The Karst Cycle of Erosion 87*

Rejuvenated and Polycyclic Landforms

*Instances of Polycyclic Landforms 87/
Rejuvenated Landforms 87*

Groundwater

Applied Geomorphology

*Two main Lines of Application 92/Specific
Applications 92*

Economic Geology and Environment

*Origin and Development of Economic Geology
99/ Rocks and Minerals 100/ Real-Life
Applications of Economic Geology 101/Ores
103/ Industrial Minerals and Other Products
104/ Environmental Impact of
Economic Geology 104/ Legal measures 106/
Bugs and in situ mining 106/ Outlook 106*

Boxes

Is the Earth a Magnet?

Difference between the Magnetic Field

of the Earth and that of a Bar Magnet

Contents

Locating Principal Magnetic Pole	14	Humidity and Precipitation: Types and Distribution	144
Magnetic Equator	14	<i>Significance of Atmospheric Moisture 144/ Measurement of Humidity 144/ Distribution of Water Vapour 145/ Evaporation and Condensation 145/ Precipitation 148</i>	
Sun's Magnetism	14	Weather and Climate	152
Some Numerical Facts About Earth	20	Classification of World Climate	152
Some Definitions	43	<i>Koeppen's Scheme 152/ Thornthwaite's Scheme 156/A Comparative Analysis of Koeppen's and Thornthwaite's Schemes 157/ Trewartha's Classification of Climate 158/ Climatic Groups Based on Temperature Criteria 158/ Climate Groups based on Precipitation Criteria 160</i>	
Some Rock-Forming Minerals	54	Hydrological Cycle	160
A Genetic Classification of Streams	66	Climatic Change	163
Important Terms Associated with Arid Topography	80	<i>Reconstruction of Past Climates 163/ Climate During Geological Past 165/ World Climate during Historical Past 166/ Climatic Cycles 167/ Theories of Climatic Change 167 / Future Implications of Climate Change 168</i>	
Treppen Concept	88	Global Climatic Change and Role and Response of Man in Climatic Change	170
Techniques of Applied Geomorphology	98	<i>Climate Change 170/ Role of Humans in Climatic Change 170/ Effects of Climate Change 173/ Response of Humans to the Challenge of Global Warming 174/ What can be done to mitigate the drastic climatic changes, particularly global warming? 177</i>	
Chapter 2		Applied Climatology and Urban Climate	178
CLIMATOLOGY	107	<i>Urban Climate 179/ The Modified Processes 179/ The Observed Results 179</i>	
Fundamentals of Climatology	107	Boxes	
<i>Climatology and Meteorology 107</i>		Heat Budget	115
The Atmosphere—Its Structure and Composition	108	Temperature Inversion	119
Composition of Atmosphere 108/ Structure of Atmosphere 109		Warning of Tropical Cyclones	137
Distribution of Temperature	110	Movement and Tracks	143
<i>Factors Affecting Distribution of Insolation 110/ Three Ways of Transfer of Heat Energy 113/ Latitudinal Heat Balance 114/ The Mean Annual Temperature Distribution Over Earth 115/ Adiabatic Heating and Cooling 116/ Vertical Distribution of Temperature 116/ Temperature Anomaly 120</i>		Different Definitions of Climate	153
Atmospheric Pressure and Circulation of Winds	120	Chapter 3	
<i>Measurement of Air Pressure 120/ Distribution of Atmospheric Pressure 121/ Factors Controlling Pressure Systems 122/ Seasonal Distribution of Pressure 125/ Diurnal Variation of Pressure 125</i>		OCEANOGRAPHY	181
Winds	125	Ocean Bottom Relief	181
<i>Factors Affecting Wind Motion 125/ Classification of Winds 126</i>		<i>The Pacific Ocean 184/ The Atlantic Ocean 184/ The Indian Ocean 184</i>	
Jet Stream	129	Temperature of the Oceans	188
<i>Influence of Jet Streams on World Weather 130</i>		<i>Source of Heat in Oceans 188/ Heat Budget of the Oceans 188/ Distribution of temperature of oceans 188/ Ice Formation in the Sea 192</i>	
Air Masses	130	Salinity	193
<i>What is an Air Mass? 130/ Influence of Air Masses on World Weather 130/ Classification of Air Masses 130</i>		<i>Distribution of Salinity 193</i>	
Fronts	132	Currents	195
<i>Front Formation 132/ General Characteristics 132/ Classification of Fronts 132/ Some Important Fronts 133</i>		<i>Warm Currents and Cold Currents 195/</i>	
Cyclones: Temperate and Tropical	136		
<i>Tropical Cyclones 136/ Temperate Cyclones 140/ Tropical and Temperate Cyclones Compared 141/ Weather Produced by the Cyclone 144</i>			

Contents

<i>Factors Influencing Nature and Movement of Ocean Currents</i> 195/ <i>General Characteristics of Ocean Currents</i> 195		<i>Primary and Secondary Successions</i> 241/ <i>Stages Involved in Biotic Succession</i> 241/ <i>Continuum Concept</i> 242	
Tides	200	Major Biotic Regions of the World	242
<i>Factors Controlling the Nature and Magnitude of Tides</i> 200/ <i>Significance of Tides</i> 201		(with special reference to ecological aspects of savanna and monsoon forest biomes)	
Ocean Deposits	201	<i>Major Biotic Regions</i> 242/ <i>Ecological Aspects of Monsoon Forest</i> 246/ <i>Ecological Aspects of Savanna</i> 246	
<i>Terrigenous Deposits</i> 203/ <i>Pelagic Deposits</i> 203		Deforestation and Measures of Conservation	251
Coral Reefs	203	<i>Deforestation</i> 251/ <i>Conservation and Management of Forests</i> 253	
<i>Ideal Conditions for Coral Growth</i> 204/ <i>Types of Coral Features</i> 204/ <i>Theories on Origin of Corals</i> 205		Social Forestry	255
Coral Bleaching	208	Agroforestry	256
<i>Factors Causing Coral Bleaching</i> 209/ <i>Bleaching may also be Beneficial</i> 211		Major Gene Pool Centres	256
Marine Resources and their Utilisation	211	<i>Gene Pools</i> 256/ <i>Gene Pool Centres of the World</i> 257/ <i>Importance of Gene Pools/ Biodiversity</i> 258/ <i>Gene Pools and the Stability and Survival of Ecosystems</i> 258/ <i>Link between Culture and Biodiversity</i> 259/ <i>Causes of Loss of Genepools/Genetic Diversity</i> 259/ <i>Genetic Resources and their Conservation: Past Efforts and Remedial Measures for the Future</i> 259/ <i>Gene Banks</i> 261/ <i>Laws and International Developments vis-à-vis Gene Pool Conservation</i> 262/ <i>Crop Resources and Their Diversity in India</i> 262/ <i>Biogeographical Regions of India</i> 262/ <i>Richness of Genetic Diversity of Plants in India</i> 263/ <i>Medicinal and Aromatic Plants of India</i> 263	
<i>Biotic Resources</i> 211/ <i>Mineral Resources</i> 212/ <i>Energy Resources</i> 213/ <i>Fresh Water</i> 213		Boxes	
Sea Level Change	213	<i>Horizons of A Generalised Soil Profile</i>	234
<i>Relevance of the Study of Sea Level Changes</i> 214/ <i>Evidence in Support of Sea Level Change</i> 214/ <i>Mechanisms of the change in sea level</i> 215/ <i>Short-Term Changes in Global Sea Level</i> 216/ <i>Long-Term Sea Level Changes</i> 217/ <i>Impact of Sea-level fall</i> 217/ <i>Impact of Possible Rise in Sea Level</i> 218		<i>Biotic Succession Terminology</i>	242
Law of the Sea and Marine Pollution	218	<i>Are Forest Fires All that Bad?</i>	252
<i>Convention on Dumping of Wastes at Sea</i> 219/ <i>2006 Amendments to the Protocol</i> 220/ <i>The United Nations Convention on Law of the Sea</i> 220/ <i>UNCLOS and marine pollution</i> 222		<i>Contribution of Vavilov</i>	260
Boxes		<i>Seed Vault in Arctic to Safeguard Crop Genetic Diversity</i>	261
<i>Some Key Features of the UNCLOS Relating to Marine Pollution</i>	223		
Chapter 4		Chapter 5	
BIOGEOGRAPHY	224	ENVIRONMENTAL GEOGRAPHY	265
The Concept of Biogeography	224	Principles of Ecology	265
Soil Genesis	225	<i>Ecosystem Ecology</i> 265/ <i>Basic Components of Ecosystem</i> 266/ <i>Types of Ecosystem</i> 267/ <i>Interrelations of Energy Flows</i> 267/ <i>Water Circulation</i> 269/ <i>Geomorphic Processes</i> 270/ <i>Biotic Communities and Soils</i> 270/ <i>Land Capability</i> 271	
<i>Soil Forming Processes or Pedogenic Regimes</i> 225/ <i>Factors Influencing Soil Formation</i> 226		Human Ecological Adaptations	272
Classification and Distribution	228	<i>Man's Transformation of Nature</i> 274	
<i>Zonal (Older) System of Classification</i> 228/ <i>World Zonal Pattern of Soils</i> 228/ <i>New Classification of World Soils</i> 231		Global Ecological Imbalances	282
Soil Profile and Horizons	233	Environmental Degradation	283
Soil Degradation and its Conservation	235	Conservation of Environment	283
<i>Types of Soil Erosion</i> 235/ <i>Factors Responsible for Soil Erosion</i> 237/ <i>Geographical Distribution of Soil Degradation</i> 238/ <i>Soil Conservation Measures</i> 238			
Biotic Successions	239		
<i>Parameters of a Biotic Succession</i> 241/			

Contents

Problems of Pollution	284	<i>Language Groups 322/ About Religion 323/ Diffusion of Religion 325/ Major Religions of the World 326/ Distribution of Religions 330/ Secularisation 330/ Six uses of the term 'Secularisation' 331</i>	
<i>Concepts 284/ Environmental Pollutants 285/ Kinds of Pollution 285/ Air Pollution 286/ Water Pollution 289/ Solid Waste Pollution 290/ Radioactive Pollution 291/ Noise Pollution 291</i>			
Biodiversity and Sustainable Development	292	Cultural Evolution of Humans	332

GEOGRAPHY OF INDIA

Chapter 13

INDIA: PHYSICAL SETTING

Space Relationship of India with 540

Neighbouring Countries

Structure and Relief 542

Peninsular India 542/ Effect of Geologic Changes on Peninsular Topography 543/ Extra-Peninsular Region/Himalayas and Indo-Gangetic Plains 543/Indo-Gangetic Plains 543

Physiographic Regions 545

1. Northern Mountains 545/ 2. Northern Plains 552/ 3. Peninsular Plateau 555/ Coastal Plains 557/ The Islands 558

Drainage Systems and Watersheds 559

Evolution of River Systems 561/ A General Survey of Drainage Systems 562

Origin and Mechanism of Indian Monsoons 565

Classical Theory or Thermal Concept of Indian Monsoons 565/ Recent Theories on the Origin of Indian Monsoons 572/ Peculiar Features of the Indian Monsoon 574

Identification and Distribution of Drought-Prone Areas 575

Identification and Distribution of Flood-Prone Areas 576

Reasons for Floods 576/ Distribution of Flood-Prone Areas 577/ Consequences of Floods 577/ Flood Control Measures and Related Problems 579

Soils 579

1. Alluvial Soils 579/ 2. Black or Regur Soils 580/ 3. Red Soils 581/ 4. Laterite Soils 581/ 5. Forest Soils 581/ 6. Mountain Soils 581/ 7. Desert Soils 581/ 8. Saline And Alkaline Soils 581/ 9. Peaty Soil 581

Vegetation 582

1. Moist Tropical Types 582/ 2. Dry Tropical Types 584/ 3. Montane Sub-Tropical and Temperate Types 584/ 4. Montane Types (Himalayan) 584/ 5. Alpine Forests 585

Land Capability Classification 585

Capability Sub-Classes 586/ Significance of Land Capability Classification in Landuse Planning 587

Schemes of Natural, Physiographic and Climate Regionalisation 587

Natural Regions of India 587/ Climatic Regions of India 591/ Tropical Cyclones and Western Disturbances 596

Boxes

Why no precipitation in Kachchh and 566

Western Rajasthan?

Significance of Monsoon Rains in 574

India's Economy

Chapter 14

RESOURCES

Land Resources 597

Favourable Features 597/ Unfavourable Features 597

Water Resources 597

National Water Policy, 2002 598/ Sources of Water 598/ River Regimes 599/ Lakes 599/ Water Falls 600/ Ground Water 600/ Problems in full Utilisation of Water Resources 602/ Increasing Water Availability 602

Mineral Resources 603

Aspects of Spatial Distribution 603/ Metallic Minerals 603/ Non-Metallic Minerals 612

Energy Resources 615

Coal 615/ Petroleum or Crude Oil 617/ Prospects of Shale Gas in India 621/ Nuclear Energy Resources 621/ Electricity 623/ Non-Conventional Energy Sources 625

Energy Crisis 629

Biotic Resources 628

Forests and Wildlife 629

India State of the Forest Report 2019 630/ Economic Benefits of Forests 632/ Problems of Indian Forestry 632/ National Forest Policy 634/ Tribals' Forest Rights Act 634/Forest Conservation Act 635/ National Forest Commission 635/ Wildlife and its Conservation 635

Selected National Parks, Wildlife 640

Sanctuaries and Biosphere

Reserves of India: A Survey

Andhra Pradesh 640/ Arunachal Pradesh 641/ Assam 642/ Bihar 642/ Chhattisgarh 642/ Goa 643 Gujarat 643/ Haryana 644/ Himachal Pradesh 644/ Jammu and Kashmir 644/ Jharkhand 645/ Karnataka 645/ Kerala 645/ Madhya Pradesh 646/ Maharashtra 647/ Manipur 647/ Meghalaya 647/ Mizoram 647/ Odisha 648/ Rajasthan 648/ Sikkim 649/ Tamil Nadu 650/ Telangana 651/ Tripura 651/ Uttarakhand 651/ Uttar Pradesh 652/ West Bengal 653/ Andaman and Nicobar Islands 653

Chapter 16		Tourism in India	794
INDUSTRY	741	<i>Growth of Tourism 794/ Classification of Tourist Places in India 794/ Negative Impact of Tourism on Natural Environment 796/ Eco-Tourism 796/ Medical Tourism 799</i>	
Evolution of Industries	741	Box	
<i>Industrial Development During the Five-Year Plans 741/ Industrial Pattern during the Plans 743/ Sunrise Industries 744/ Footloose industry 744</i>		FDI Policy	787
Locational Factors of Industries	744	Chapter 17	
<i>General Factors Influencing Location of Industries 744/ Spatial Pattern of Industrial Development 745</i>		TRANSPORT AND TRADE	800
Agro-based Industries	746	Roadways	800
<i>1. Textile Industry 746/ 2. Sugar Industry 752/ 3. Vegetable Oil Industry 754/ 4. Tea Industry 754/ 5. Coffee Industry 755/ 6. Leather Goods Industry 755</i>		<i>Significance of Roadways 800/ Various Classes of Roads 800/ Density Pattern 801/ Development of National Highways and Expressways 801/ Border Roads 806/ Rural Roads 806</i>	
Mineral-Based Industries	756	Railways	807
<i>1. Iron and Steel Industry 756/ 2. Copper smelting industry 759/ 3. Aluminium Industry 760/ 4. Lead and zinc smelting industry 761/ 5. Cement Industry 761</i>		<i>Significance of Railways in India's Economy 807/ Rail Network Pattern 807/ Rail Network Density Pattern 810/ Problems of Rail Transport 810/ Bibek Debroy Committee Report on Railways 812/ Railway Zones 812</i>	
Heavy Engineering Industries	763	Airways	812
<i>Industrial Machinery 763/ Power Generation Equipment 763/ Automobile Industry 764/ Rail Equipment 766/ Aircraft Manufacturing 767/ Ship Building 767/ Machine Tools Industry 767</i>		<i>Significance of Air transport 812/ Development 812/ Organisation 815/ Problems of Air Transport 815</i>	
Light Engineering Goods Industry	768	Waterways and Shipping	815
Chemical Industries	768	<i>Inland Water Transport 815/ Ports and Coastal Shipping 818/ Advantages and constraints of coastal shipping 820/ Shipping Corporation of India Limited 821/ Cochin Shipyard Limited 821/ Hindustan Shipyard Limited 821/ Growing Importance of Ports in National and Foreign Trade 821/ Sethusamudaram Project 822</i>	
<i>Basic Chemicals Industry 768/ Petrochemicals Industry 768/ Fertiliser Industry 770/ Drugs and Pharmaceutical Industry 772/ Glass and Ceramics Industry 774/ Salt Industry 774</i>		Pipeline Networks	823
Forest-based Industries	774	Competition and Complementarity in Regional Context	824
<i>Paper and newsprint Industry 774/ Rubber Industry 776/ Industries Using Minor Forest Produce 777</i>		<i>The Pattern of Competition and Complementarity in India 824/ The Fiscal Aspects 825</i>	
Cottage Industry	777	Passenger and Commodity Flows	825
<i>Problems faced by cottage industries in India 777/ Organisations working for the benefit of cottage industry in India 777</i>		<i>Passenger Flow 825/ Commodity Flow 825</i>	
Industrial Complexes and Industrial Regionalisation	778	Developments in Communication and Information Technology	826
<i>Major Industrial Clusters 778/ Minor Industrial Regions 781</i>		<i>Postal System 826/ Telecommunications 827/ Impact of ICT on Economy and Society 831</i>	
Identification of Backward Areas	781	Trade	834
Industrial Houses	782	<i>Intra- and Inter-Regional Trade 834/ Role of Rural Market Centres 834/ Trade Balance 835/ Trade Policy 837/ Indian Organisations for Promoting Trade 840</i>	
<i>Public Sector 782/ Private Enterprise 784</i>		India's Space Programme	841
Industrial Policy Since Independence	785	<i>Organisation and Objectives 841/ Space Centres</i>	
<i>Earlier Phase 785/ New Industrial Policy 1991 785</i>			
Liberalisation	787		
<i>Effects of Liberalisation 788</i>			
Multinationals	788		
Special Economic Zones	789		
<i>Financial SEZ 791/ SEZs vs New Towns 793</i>

INDIA: CULTURAL SETTING	868
Historical Perspective of Indian Society	868
<i>Diversities and Unity 868/ Genesis of Ethnic and Racial and Ethnic Diversities 869/ Racial Groups and their Distribution 870/ Ethnicity 872/ Caste System 872/ Total Population and Percentage of Scheduled Caste and Scheduled Tribe: 2011 Census 875</i>	
Religious Minorities	876
Major Tribes and their Problems	877
<i>Pattern of Distribution 877/ Some Important Tribes of India 879/ Problems 883/ Scheduled Tribes Development 884/ The National Tribal Policy 884</i>	
Role of Language, Religion, and Culture in Formation of Regions	884
<i>Cultural Regions 884/ Language 886/ Number of Religious Groups: Facts at a Glance 888/ Religion 888/ Culture 889</i>	
Population—Distribution, Density and Growth	890
<i>Salient Features of Indian Demography 890/ Aspects of Spatial Distribution 891/ Sex Ratio 891/ Table 18.5 893/ Ranking of States and Union Territories by Population Size 2011 893/ Religion-based Sex Ratio: Facts at a Glance 896/ Religion-based Child Sex Ratio and Literacy Rate 2001-2011 896/ Age Structure 897/ Dependency Ratio 898/ Density of Population 899/ Terms to Remember 900/ Growth of Population 902/ Literacy 906</i>	
Population Problems and Policies	911
<i>India and the Demographic Transition 912/ Reasons for Population Growth 913/ Consequences of a Large Population 914/ Tackling the Problem 915/ Family Planning and Welfare Programme 915/ Population Policy 916/ Health and Human Development Indicators in India 919/ National Health Policy 920/ National Health Mission 920</i>	
Box	
Terms to Remember	900
National Commission on Population	918
Chapter 19	
INDIA—SETTLEMENTS	923
Rural Settlement Patterns	923
<i>Types of rural settlements 923/ Factors Determining the Type of Rural Settlements 928</i>	
Urban Development in India	929
<i>Growth of Urbanisation 929/ Towns and Cities 929</i>	
Functional and Hierarchical Patterns of Indian Cities	933
<i>Functional Patterns 933/ Hierarchical Patterns 934</i>	
City Regions	934
<i>Determination of boundary/limits of a city region 935</i>	
Rural–Urban Fringe	935
Internal Structure of Indian Cities	935
<i>The Old Core of Indian Cities 935/ Cantonments and Railway Colonies 936/ Consequences of Rail Network 936/ Most Recent Developments 936</i>	
Census Concepts of Urban Space	936
Conurbations and Metropolitan Regions	937
<i>Development of Conurbations 938/ Characteristics of Conurbations 938/ Problems Associated with Conurbations 938/ Metropolitan Regions 938</i>	
Urban Sprawl	938
Urban Housing	939
<i>Major Constraints in Urban Housing 939/ National Urban Housing and habitat Policy, 2007 940/</i>	
Slums and Squatter Settlements and Associated Problems	941
<i>Concept of Slum 941/ Problems Associated with Slums 941/ Distribution of Slums in India 941/ Efforts to Tackle the Problem 942</i>	
Town Planning	943
<i>Major Constraints in Town Planning 943/ Suggestions for Removing Constraints 943</i>	
Migration	944
<i>Trends of Migration in India 944/ Impact of Migration on Major Cities of India 944</i>	
Problems of Urbanisation and Remedies	945
<i>Solutions to Urban Problems 945/ National Urbanisation Policy 945</i>	
Chapter 20	
REGIONAL DEVELOPMENT AND PLANNING	947
Experience of Regional Planning in India	947
<i>Intra-State Planning 947/ Inter-State Schemes 947</i>	

Contents

Regional Policies in Indian Five-Year Plans	949		
Regional Disparities in Development in India	954		
<i>Spatial Pattern of Regional Imbalances in India 956/ Efforts through Various Plans to Remove Regional Imbalances 956/ A Critical Evaluation of Plan Efforts 961</i>			
A Model Scheme of Planning Regions of India	961		
Multi-Level Planning—State, District and Block Level Planning	967		
<i>The Case for Decentralised Planning (Especially at the District Level) 967/ Objectives of Local Level Planning 967/ Evolution of Multi-Level Planning in India 967/ Problems in Block-level Planning 968</i>			
Centre-State Relations and the Constitutional Framework for Multi-Level Planning	968		
Regionalisation of Planning for Different Regions	969		
<i>Metropolitan Regions 969/ Tribal Areas 971/ Hill Areas 974/ Drought-Prone Areas 975/ Command Areas 975/ Watershed Management 980</i>			
Panchayati Raj and Decentralised Planning	980		
Regional Planning and Development of Island Territories	982
